

Tiny 30

- Low Cost Microwave Motion Sensor.
- Easily Connect to any LED load up to 100 Watt.
- Turns OFF light if no motion detected after 30 sec.
- Can be connected to any light/ luminaire.

Application:

Corridors, Warehouse, Parking lot, Balcony

Specifications:

Input Voltage: 120 to 260v AC

Output : up to 100 Watt

Detection Area: 160/360 degree

Delay time: 30 to 50 sec

Sensing Range: up to 8 meter

(Didn't work during the day time)
